

Central Intelligence Agency

Washington, D.C. 20505

11 March 1988

Honorable Terence C. Golden  
Administrator  
General Services Administration  
18th & F Streets, N.W.  
Washington, D.C. 20405

Dear Mr. Golden:

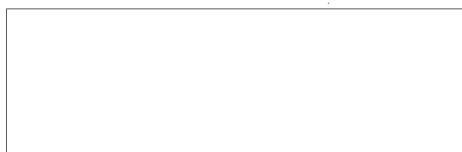

Thank you again for the opportunity to use the services of your Art In Architecture program to commission some original works for the new building at the Central Intelligence Agency. We are quite pleased with the results to date.

The Chairman of our Fine Arts Commission attended the recent review of the recommendations from the National Endowment for the Arts at your agency. We are generally pleased with the rankings of the artists that resulted from that meeting. We are especially enthusiastic over the work of Mr. James Sanborn in sculpture and Mr. Matt Mullican's interior design motifs. The Agency's goals in this project would be fully met by commissions with these two artists.

We look forward to a continued close working relationship on this project through the final artist selection and contractual phases. I understand that the Art In Architecture program has already been advised of our special security needs.

Again, thank you very much for your assistance.

Sincerely,

Executive Director
